

SDGs Seminar

Numerical and Data-driven Modeling

28th Feb. 2019 13:30 – 15:30

**Faculty Building of Environmental Science and Technology,
1F 101 Lecture Room, Okayama University, Japan**

Invited Lectures

Prof. Anthony Thornton (University of Twente)

“Multiscale modelling of geophysics flows”

Dr. Hongyang Cheng (University of Twente)

**“Direct numerical simulation of wave propagation
in dry and saturated granular media”**

Dr. Xingyan Fang (University of Twente)

**“Sentinel-2 for assessing winter cover crop growth
and its influential factors in maize cropping system
in the Netherlands”**

Organizer

Takayuki Shuku and Bernard Chenevier
